Subject: Follow up & Next Steps

Hi Jefffey,

Saw this post <<http://www.zerohedg=.com/news/2017-11-23/alwaleed-bin-talal-hung-upside-down-and-beaten-us-mer=enaries>> about the situation in Saudi Arabia and thought of =ur conversation, interesting to see how reform is being adujacted.

I'm also trying to make some plans and wan=ed to know if you wanted to discuss next steps on your project.

I've tentatively scoped out Michael Casey =o potentially meet with us the weekend of Dec 1-3 if your in New York and =ould like to do a follow up session with him.

I'd also like to arrange a quick video cal= to talk about the scope, timing and roles for people in this project.

I can assemble the right blockchain architec=s, engineers and cryptographers to map out and eventually build a system t=at could be deployed but want to get an idea from you about the timeframes= budget and requirements for moving this from brainstorming to an actual project.

So are you good to meet with Michael, Cather=ne and I that weekend in New York? and are you available for a quick=video chat about project scope?

-Austin
