Subject: Warren

Guys: I just dropped Mike off at the airport and he is en route back to =Y. Here's the lowdown on Warren: as you all know his lung cancer is very advanced. Today is his =inal day of radiation. Tomorrow he begins a new drug that is =aken orally that is designed to arrest the cancerous cell growth. =he bottom line is that if the drug works, it will give him another 2 =ears (more or less). If it doesn't work, he has about 2 =#8211; 3 months. It will take a couple of weeks to see if =ts working so pray for him. The visit by Frog was =errific. We had a good time, laughed a lot – a good =iversion for Warren. Frog also met with Warren's doctor and =aw the clinic. Lets see what happens. TK
