Men

i lectured yesterday for the first =ime on the Evolutionary Genetics of Honor Killings—including the l=ncing of Lennon Lacy—i thank both of you in advance

it was filmed by Michael Shermer's crew of experts and will=be u-tubed to his 100,000 Skeptic viewers—where it will go from th=re, only the internet can tell us

it was a bit ov=rly long, a mistake i will seek to correct in my next version end of Novem=er—again to be u-tubed—this time in Barcelona Spain <=iv>

the three of us can not do anything about honor killings=except describe them and analyse them

but lynchin=s are part of our life, our country's history—we can and shoul= do something about them—they still happen at the rate of more tha= one a year—i refer to three more in my short piece on Honor Killi=gs

i will wait til you see this all on film befor= discussing this further

best wishes  
bob
