Subject: California Bar

Hi Jeffrey,

Ok, thank you for advice that I am taking. I thought a lot about it this=month, and I want to do it, Yes. to complete the Bar.

The only drawback of getting the Bar done is not being able to work duri=g this time + time to find a law firm which sponsors visa.

But I am 27 y.o. and must work.

Thank you Jeffrey, for your guidance.

I checked w=th my LLM classmates for the best preparation courses. These are the best =options I have for February Bar. It is around 3000 usd. Would it be possible for you to sponsor it?

Maybe I can do a better job to find extraordinary smart people like [REDACTED] with whom you can do projects, business, or help to source the scientists=for you in the future? If you need more assistants, let me know. You did n=t react on last 3 candidates so I thought you are busy working or found right PAs already.

One of the =hought process tools I applied...
