[REDACTED] Re:

Lovely morning in Sweden, hope you're doing great to :)

I'm organized-oriented and I do know how to deal with computers. I don't know which level/how advanced you wish for, but I'm sure I'm able to learn your computer programs.

At the moment I'm writing an essay in social science methods for my current psychology Course.

If you like to call me on Skype, let me know what time (in NYC).

Sincerely, [REDACTED]
