Hey Jeffrey,

I've got a whole file =nd tons of research on the latest longevity plays everyone is investing in= My buddy is doing a big play in this area that I'm investing in=and helping out with. Could be a game changer - it's based on th= thesis I mentioned about reducing the time it takes for the cost of longe=ity treatments to become affordable and widespread like cell phone as oppo=ed to an elite service like private planes.

If we=can shrink the timeframe it takes to drop the cost and the accessibility o= major longevity protocols to a 5-10 year time frame we can advert a geron=ological economic class war that will probably be found with nano-bots &am=; customized designed viruses which is very hard to win in asymmetric warf=re.

Here are a few teaser links to wet your menta= appetite. Let me know if you want more - or want to see our stack w= are developing. Or even if you want to through some money int= the pie as a co-investor.
