Larry –

Just spoke to Heather at Gulfstream – she is going to the woodshop to put Bo & Arrow on the phone so that I can explain to them how to do their job properly.

Best Regards,

Eric

Larry,

I spoke with James and Bo this morning regarding Mr. Epstein's inquiry to wrap the veneer around the bullnose edges on the Veneer instead of stopping it and using a hardwood. They evaluated each of the ledges, tables and credenza top and determined that due to the design of the furniture and the linear silver birch veneer, they do not recommend wrapping the hardwood in the veneer/single ply. I have attached photos showing the details of your ledges and the areas of concern.

Both Bo and James would be happy to further discuss the details over the phone should you have any questions.

Kindest Regards,

Heather Lemieux

Good Morning Bo and James,

Please see the email below from Larry Visoski, 5173's Pilot, regarding the hardwood and veneer on the ledges. Are we able to do this for A/C 5173??

Kindest Regards,

Heather Lemieux

Subject: Veneer

Hello Heather
Could you ask James about how he finishes the bullnose edge on Veneer,,,
As you see in the photos the light colored wood is a Gulfstream product completion,,
The dark wood is IJI in Islip,,

Mr. Epstein prefers the dark wood edge sample below appearance, where the Veneer wraps
around the wood, typically Gulfstream uses a hardwood and stops the veneer from wrapping, can you provide the same
veneer look as the Darkwood in the photo below using our silver birch
Selection.,
