Subject: Bell 430

Jeffrey,.

Bell is going to work straight to get the helicopter flying by Saturday morning for me, so I can arrive late Saturday evening into St Thomas.

-They are completing the invoice for our review, we will have to initiate the wire before I'm able to depart with helicopter.

My estimate for this annual includes: \$92,000.00 -Annual inspection cost \$19,500.00 -upgrade hydraulic servos \$46,414.00 (this is one time only upgrade that was due).

-I will have full break down of other repair items totaling the remaining \$26,086.00 -corrosion under passenger window

-replace nose tire and rim due to corrosion -clean and treat tail rotor gears and main gear couplings

I'll have Rich ready to send Wire Transfer of funds once you approve</=IV>

thank you,
Larry
