it would be helpful, to have a more detailed presentation that details what you said was at least 100 million in firm commitments that mort has obligated these trusts to invest either now or in the future<=r clear="all"> each trust should not only have its legal restrictions but its corpus = realized and unrealized tax positions liabilities INCLUDING commitments to invest .. Thank you for organizing what you have so far, and i await the calculation of how much in fees commissions and overrides have been paid out , as well as a comparison to benchmark returns for the each trust and investment category,
