A sense of =rgency may have been a result of my trying to understand your noncompete s=atus in light of what was announced in the media and what was discussed du=ing the course of our discussion.

Attempts ar= still under way in getting internal alignment with key stakeholders. =3B

As soon as =evin Won's staff informs me on the next step, I will get back to=you right away.

Hi Steven

Hope you are doing well.

First of all, my sincere apologies, on beha=f of Samsung Electronics for not getting back to you sooner.

We really struggled on finding a possible match=for your preference, especially related to Tizen.

Yet, it is the opinion of many executives tha= Tizen needs to be an integrated part of Samsung's strategy (even =f it means hedging).

Therefore, we would need to see if there are =ossible opportunities to collaborate in more defined and focused setting d=wn the road.

Whether in a consulting, partnership, or jo=nt development role, perhaps there could be an opportunity in the future=

Our Mobile Division folks know about you; hence, may be willing to reach out when such an opportunity arise in the near future.

Thank you for your continued interest in Samsung Electronics.

Happy July 4TH.

Warmest regards,
