Went to see apartments in Moscow. for about the same price as the first apartment there are nicer apartments at the new developments=with all the amenities (the so called "club houses"), I went to =he buildings that are almost finished as the prices are better. my favorite was the development "I'm" <http://immoscow.ru/> <<http://immoscow.ru/>> - it is almost finished, some people have= started redecorating, probably one of the best houses I have seen in Moscow.
