Good evening Jeffrey,<=>

Larry let me know that you showed concern regarding th= ledge detail / overlay.

The new detail is very, very close to that of the tabl= and coordinates exceptionally well.

As a matter of fact, we made the first one out of alum=um and I did not like the inboard radius over the leather, so I had my gu=s order brass to get a nice, tight fit.

The pieces came out perfect and we were able to send t=em out today Fed Ex to the metal plater to be plated in the polished finis=.

I really like the way they look and aesthetically tie =nto the table detail from the Rolls Royce.

Overall, the design and effort has made this a great d=sign detail instead of what could have ended up being just a band aid fix.=u>

I believe you will be very happy with this interesting=design detail and how it plays throughout the cabin.<=p>
