Subject: FW: Life Science companies / Gates

Below is an email (middle one) in which I requested that we included Foundation Medicine - which was not included in the list of company KPBC wanted to present to Bill,

After I suggested that FM gets included KPBC agreed (email just below).

Even after that it took me several emails more as Foundation Medicine got omitted. Will send you those.

Boris

Boris-

The CEO of Trius Jeff Stein would very much like to connect with you and I'm optimistic that we can work together to resolve issues so we can move forward with a relationship.

Foundation Medicine is a great idea; the CEO Mike Pellini will be there! I will get you a full list of active life sciences companies in a few hours and more information on Foundation Medicine.

Looking forward to seeing you next week.

Thank you Lila!

How about Foundation Medicine?

Trius might be interesting as there are few issues that Foundation is tryin= to resolve.

Thank you

Boris

Larry & Boris,

I'm following-up on my conversation with Larry about potential life science=companies to meet next Friday.

We can meet with Trius for an update. You helped put them on a good path af=er our last meeting, but they've hit a few roadblocks. We think it's worth=a follow-up.

The other companies suggested - Calixa, Novadyne, Alphavax - are more matur= and/or we've exited. In other words, we aren't actively engaged in these =ompanies.

I've copied Risa Stack, one of our Life Science partners who you met in May=with Trius. She's pulling together a list of current companies to see if t=ere is 1-2 others you might be interested in. Boris -we previously passed =n meeting 3V BioSciences. We met with PacBio the day of their IPO in 2010.=We don't have many other therapeutic related investments.

Thanks for your guidance.

-lila
