**Subject:** Tennis surface

I've played tennis at the Marriot in St thomas, they have a simple solution, its a concrete base floor, with indoor/outdoor Green Astroturf, same as used in indoor Football stadiums, the difference for Tennis and football is sub surface.  
Tennis is hard clay or cement.,  
Football has a padding under the astroturf.  
Close?  
Or rubber link system is used now for tennis courts, I'll fwd weblink.

Thx  
Larry
