sounds good, rich please review carefully,

On T=u, Oct 10, 2013 at 5:55 PM, Mark Tollison <[REDACTED]> wrote:

I met with Richard Boltz in person w=th two other engineers to review the proposal along with Brice.

This was made clear you will receive for the ethernet syst=m for the Main House and Ranch Central:

1. a commercial grade ethernet system to improve and expand recepti=n desired from ISP provider to be chosen.
2. can be managed and programmed remotely for the Main House and Ranch Ce=tral.
3. equipment to be used has proven to be reliable and has capacity for =he future expansion.
4. sequence of installation will cause the least disruption - will be to =eplace the existing Cisco router first with an Adtran router, develop the =etwork (with pole installation at three points) and then intergrate the wi=.
5. lead time from time given to proceed -to acquire equipment on their part=- 15 days, afterwards to proceed as quickly as possible per 3 general step= noted above.
6. can provide long term service agreement based on system installed afte=wards.
7. Boltz who was very accommodating did say he will not be able to provid= another proposal or scope of work per the Owner who I met as well, has be=nt told he has too much time in on this already.
8. this is a not to exceed quote, unless something more is desired during i=stall.

Observations:

This vendor has the commercial level of expertise, and experience to create=a reliable system with capacity, can monitor and reprogram remotely, can t=ouble shoot and service it long term, and add to as desired with the lev=l of technical expertise in its personnel that will be needed and I would =ook for for this property vs residential oriented companies who may be l=ss expensive but at the end of the day often cannot engineer, deliver, tro=bleshoot, service properly or add to. Also were very customer service or=ented and know the ranch.

Best regards,

Mark
