NYC

Merwin =s unsure of projector wiring and Al says he will not be responsible as =t can be a lot of work I will have Al come =hursday to do install and if wires need to be changed i will have =erwin involved so Al does not charge us..  
please =onfirm if ok  
thank you

Hi Rich,

Not sure who is our a/v guy before Al and Zinon. HDMI is not =ompatible with 4K. But, there is a wide open ceiling to fish wires from =projector to receiver.

Hello Sir,

There's lots of emails going around — some with incorrect information so I thought it'd be good to recap the status of each house.

NYC / 1st:  
Receiver: Marantz AV7005 does NOT support 4K passthrough  
Projector: Epson LS10000 is 4K HDR compatible  
Cables: uncertain, assuming not 4K

Zorro:  
Receiver: McIntosh MX121AV does NOT support 4K passthrough  
Projector: Epson LS10000 is 4K HDR compatible  
Cables: uncertain, assuming 4K

LSJ:  
Receiver: McIntosh MX121AV does NOT support 4K passthrough  
Projector: Epson Pro 1505UNL — upscales to 4K, not actual 4K

Cables: uncertain, assuming not 4K

Palm Beach:

Receiver: Marantz SR7009 is 4K compatible

TV: Samsung UN75HU8550F is 4K compatible, may not support HDR

Cables: uncertain, assuming 4K

Paris... =BD.

I'd suggest sending an Apple TV 4K down to Palm Beach to replace their existing Apple TV and seeing if it works as expected.

If it does, consider the Marantz SR7009

<http://us.marantz.com/us/Products/Pages/ProductDetails.aspx?Cat=d=AVReceivers&SubCatId=0&ProductId=SR7009> for other locations.

Thank you,
