I have Pokey, TJ and Gary working on five Palms they will construct, repair p=t in butterfly doors and paint, I had Pokey speak with Karl from Condado wi=dows to walk him through the repairs as soon as they're finished with five p=lms they will continue to work on the grotto which is about 75% complete.

Five Palms should be completed by Wednesday no later than Thursday morning.

Danny V. and Danny E. can now focus on the Library bookshelf's and MC Swimmi=g pool.
