Good Evening boss

I have started on the flag pole pool system. I have layout the speakers, tri=ming back the compromised wire until I found relatively clean copper stands=and replacing the ends with those that I found. This is only a temporary fi=. Marine grade cable has been ordered along with new ends. I will replace t=e compromise wires with new marine ranks wire once it arrives. I completed m=st of the left side already.

Tiki hut:

The mixer and amps need to be replaced, but the speakers appear to be in goo= shape. I will schedule with Anna for the carpenter to repair the door befo=e repairing the system.

Regards
Jruan
