=ow, this is where it gets interesting. Sotheby's catalogue illustrates = cartonnier (illustrated below) which they described as "later" that=came with the desk. Does Mr. Epstein have the cartonnier? It's=obviously hard to say from this black and white photo, but stylistically, =he cartonnier could be from the 1760's. If so, it was likely made at th= same time the lion's masks were put on the sides and would make the desk =ignificantly more valuable.
