Subject: RE: MATH SAVANT / videos

Deepak , the testing and PREPARATION i per subjec= is turning out to be more time consuming than i realized . It might be =C2 good idea to give at least token compensation to some of the people involved The easiest way to do this would be to send a=cheque to REGENTS OF UNIVERSITY OF CALIFORNIA Fo= Dr Ramachandrans research on savant syndrome ; mail to Me P=ter Smith-Hinkley Dept of psychology UCSD La Jolla CA 92093-01=9

Needless to say OI won't get any of this for personal use =C2 - i might pay dR chunharas and others and purchase =A0supplies exclusively for thi. This is because he has hands =C2 full completing his thesis - and i may have to recruit others =C2

Anything ranging from 1 K to 3 would probably cove= the three subjects Any unused money will be held in your name=

if your funds don't permit this don't worry - ill =ook into in- house university sources - though it might get mired in=bureaucracy

Lets meet informally next time you are in town

Cheers rama

Thank you Rama !

Deepak Chopra MD

Deepak , Rachel eet al The testing we did on Ram=es was useful " rehearsal " and we look forward to seeing =im again as well as the new subject , end of october. <<http://UrlBlockedError.aspx= dir=>>

Primes are easy to study - so we began with those but the=e are other skills too and we will design experiments to test these =Rama

Hi Deepak,

Just informing that Dr. ramachandran's dept contacted me, and I think I will try to bring my son to San Diego Oct 30 for savant research. Savant is one of the most mysterious of puzzles in human species! And interestingly, a child holds the clue. ;-)

Thank you sincerely,

Love and light, Carolyn Fok

Hello Deepak,

I met you briefly at the El Cerrito HOME event. In case you didn't receive my videos (Math Savant) since you were in 'silence'.=You mentioned neuroscientists could be interested.

In the videos below, you will see him do ratios of 48's up to 10,0=0, both plus and minus for any number. Basically, he is able to tell you the difference between his father's age (53 at the time) and his age (5 =t the time) at any number range, mostly below 10,000. It was discovered last September 2016. He father lives in England so they do this through Skype. He can branch off to other people's age if he knows them, etc.

Thanks for your attention - Carolyn
