Jeffrey,

We were not able to get the wire through the bulkhead on the L/H side during=this visit as we found that more of the interior needs to be removed than a=ticipated.

We were however able to go through the bulkhead on the R/H side in your dire=t view.

All other items were completed including providing you with a second remote (=hat was programmed) so that should your remote get damaged, lost, etc. down=the road, you had a back up ready to go.

Lastly, we installed a cool white and a warm white led for you to view on yo=r flight.

Eric
