I put =eon on a "do not contact" list in MIT development and had his assigned =o us as a donor. Do you know if he wants to be anonymous or wants =ecognition from MIT officially other than a thank you =etter?

=div>

Hi. I talked with Richard and Signe today. (Today =s Signe's last day with Richard, before she joins =s.)

All is good. Leon will be assigned to Richard =nd me. He will not be contacted by anyone else. He will get a short =cknowledgement from Rafael thanking him, that's all.

However, Richard needs to know if Leon wants to be =n anonymous donor to MIT, or would want his name on a donor list. Can =ou ask Jeffrey to ask Leon that? We can make it anonymous easily, =nless Leon would like the credit.

If Jeffrey tells you that Leon would like a little =ove from MIT, we can arrange that too, but right now no one will =tempt to visit him, including the =resident.

Cheers!
