Do =ou approve of upper No shadow sample with black border?

Th= gray only may not be enough contrast for FAA and our FAR125 cert inspecti=ns.

We could use a darker gray for N number or use black pi= outline as in photo.,

Thx

Larry

Larry,

Following our last conversation here is a set of N numbers, not 12" =r the 36" or the three times the size , but twice the size at 24"= high in the military font. Also a flag on both sides. Flag is also 24&quo=; and a average size.

Please advise, Thanks, Guy
