**Subject:** Essay just a start..

My decision to pursue general dentistry residency program is a result of my dental learning experience, that starts back in Minsk where I went to dental school and continues in US at Columbia University College of Dental Medicine from which I am going to graduate in May 2015, I also worked as a dental assistant for general dentist, prosthodontics and a periodontist which gave me an opportunity to see the reality of dental profession a little closer. After all this time I am very confident to say, that restorative dentistry in all its every aspect is what I would like to learn to be my expertise. Right now I am at the beginning of this long and challenging journey. And if I am fortunate enough to become a part of your problem that would give me an opportunity to learn advanced techniques of treatment, to manage medically compromised patients and being able to intervene with other parts of medicine when necessary...
