Jeffrey

Quick Fltplan shows 9 hours with +22kt tailwind.,

STT-Vienna it's a strong "maybe" for nonstop.

Weather would have to be good in Vienna for arrival, since reserve fuel would be low.

There are several airports for fuel stop once we get into Europe if landing fuel and weather becomes issue.,

-Paris is forecasting rain thru Saturday, lows 55 degrees, high 72 degrees and -Vienna is forecasting rain Wed and Thurs. clearing Friday. Temps 70degrees,=52 lows.

Thx
Larry
