Dear Jeffery, I definitely want to cont=nue and my team and I already started working on floor plans right after y=u indicated that the Chateau image generally worked.

<=iv>I would like to clarify that what you have is not a photoshop but a ful= 3D model built to scale and superimposed on the actual image for precisio= and clarity. This process takes time... Same with LSJ; it's all 3= modeled and to be honest with you, I do really love the result. It can ce=tainly be improved and analyzed a lot further but please remember we are j=st in the master plan concept stage and you've drastically changed=direction of the concept a couple of times...

If this concept for both islands makes sense for you and is now approved=as a CONCEPT, we can now move on and continue developing the schematic des=gn information that you are requesting and start defining and detailing ev=rything and gett=ng the rest of the professionals on board.

Please understand that I don't mind changing direction as ma=y times as it's needed to your full satisfaction and I also really=like you and working with you but I don't appreciate when you dimi=ish our work.

Believe me that we have inves=ed countless hours of many people in your project and we will continue doi=g so because we want this to be an absolute success and I know we can. =A0

If we do continue, I really need Richard to se=d us back the signed agreement that we've requested from him a few=times and to please process the outstanding progress payment.

<=iv>

I'm available at any time tomorrow to go over ev=rything and sort it all out.

Best regards,<=div>
