I'm taking off for Europe tomorrow, the optimization on the visa game ="Will Vincenzo be deported?") says that it's better if I leave now and =ome back mid Nov.

Anyhow the update is that I'm set on what I'm going to do (plus/minus =ome delta that is somewhat independent of me) and the "summary" is:
"Real-time mobile asset transfer provider that users can trust to send =oney cross-border [instantly], efficiently and reliably from anywhere =o anyone."

It sounds dumb, but I have a way bigger plan for this ;) Plus it solves = couple of problems that the Fed highlighted (and potentially a problem =hat treasury has with bitcoin)

Maybe we should do a Skype call at some point or meet in Europe if you =appen to stop by Paris or something like that

Take care,
Vincenzo
