S=bjject: RE: Purchase Diagnostic scanner

Hello Ann:

I guess we have sorted it out now. As far as the Polaris ATV's goes, we are able to do the same

diagnostic, erase fault, etc. like we do with all the other applications, except we don't have anything

for the EPS electronic power steering. We'll add this in one of our updates at a later stage. This is the

reason why every customer gets UNLIMITED FREE software updates.

Here are the items you would need:

All pricing is in US dollars

Product

Description

Price

iDS Intelligent Diagnostic System USB Cable, Serial cable, Transport case

The iDS is the component that transfers data from the vehicle to the computer via a USB cable. Data is converted into a user-friendly visual display allowing mechanics to effectively diagnose engine faults and performance. The iDS includes a 1 year warranty and UNLIMITED FREE software updates from date of purchase. The iDS is a standalone system and can be used without the KPS.
