fix all

On Sat, Oct 4, 2014 at 1:50 PM, Ann Rodriquez H=y Rich & Daph,

Notes from Mr. Munkes the Barge Mechanic that came out today...

- Bilge needs to be cleaned
- To much Oil in the Bilge
- 2 45gal Drums needed for clean up
- 5 5gal Degreaser needed for clean up
- Boat Electrician needed: to much loose wires hanging on hot equipment tha= could melt.
- Oil Tape needed when changing or reconnecting joints and lines to stop co=rosion.
- Oil change needed
- New fuel filters needed
- Barge Captain was putting old oil in the fuel tank because the diesel wil= thin out. It could work but it's a bad idea for the engines because i= makes it work much harder.
- The fuel is dirty from the old oil.
- Storage room is a mess
- Hydraulic lines can give way at anytime. Need all new equipment and lines=
- If coast guard check our barge we would be in violation.

Ann R.
