Subject: Re: Barge

Carlos, I made arrangements for the Barge to be towed. I'm aware you don't want to drive the barge. I asked you to take control and make sure that it gets home safe??? Benji from SBDD had already agreed to bring the barge to Redhook for us which you are already aware of from this morning

once again, as LSJ head boat captain. I just need for you to make sure it's home safe. I've made all arrangements necessary to get Big N home

Ann R.

> Greetings all subbase dry dock wants us to remove the barge from their facility, I don't think it's appropriate the barge has a 10 inch gash that according to Grne is not taking water. I dove the barge and saw the gash, they can't see it because water is like chocolate milk right now. I beg uso not to make me ride in this craft as I am no longer comfortable in it after thursday near collision with a ship due to loss of steering and power, I got extremely nervous. I have no problem assisting in the tying of it in red hook but do not ride in it from town with a gash on bottom.
