I was going to do a summer event that doesn't include all of our sponsor =ompanies, but focus on smart people, smart funders and or prize =inners, fellows, etc. If the Leon Black money comes in, can I spend =ome of it on hiring a person to run this and to throw this event? If =ourse I won't blow the whole thing on it and it's in the Templeton =udget too, but it doesn't sound like Templeton will get approved until =he end of next year.

Do you have dates in the summer next year that are preferable over =thers?
