Subject: Further timber update

Timber update- no better bids came in. Best bid is a 15% discount on the 6/30 <x-apple-data-detectors://0> value = to \$16,125,588. This was the bidder's initial offer. Eaton Partners believes there may be a few addl % pts they will be able to extract. This addl % was obviously built into status update last week when they gave guidance that they had a ' low teens' bid. There were 10 bids-majority came in with +/-30% discounts. This best bidder would like a brief period to do a bit more confirmatory due diligence and will commit to close sometime before year end. I sent the same update to Leon asking if he is agreeable to a bid at this level.
