Jeffrey Epstein

Final paper

1. Sneaky dog, I am wr=ting my final paper fro biology science on this topic. I made some outlin= of questions I would like to explore. Would you give me some suggestion a= an expert please? or some valuable references, links on materials I could=use? Thanks

<=p>

Colon cancer resistance to in=ibitor drugs.

Outline:

1. what is colon cancer ? how it occurs? who=is most vulnerable to the disease    ◆=A0

</=l>

=Colorectal cancer, or colon cancer, occurs in the colon or rectum. As the =raphic below shows, the colon is the large intestine or large bowel. The r=ctum is the passageway that connects the colon to the anus. Looking at mut=nt lung and colon cancer cells)

2. What the causes to drug resis=ance? Tumor cell resistance what cause to a mutation
3. Gene signatures of drug resistance predict patient survi=al in colorectal cancer
4. Current ava=lable medical treatments for colon cancer.
5. Specific cases
6. how much scientis= know about colon cancer and how difficult this information reaches people=
