An upper state helicopter company called me last week:

Tom Wo=rlen

Director =f Maintenance

Na=ional Helicopters Inc.

[www.national=elicopters.com <http://www.nationalhelicopters.com>](http://www.nationalhelicopters.com)

Tom asking if we are intere=ted in selling our B430 float bags that are removed off your B430.,=/div>
The nitroge= bottle we own has a shelf life until 2015, which is almost timed out., co=t to replace is \$12,300
The offer to purchase our float bags and hardware as se=n in photo below is \$40,000 to you.

I have to confirm these bags are in airwort=y condition to complete this deal if you accept.,

Our floats have been removed =or over 5 years and most likely will deteriorate just sitting on the shelf=in my office. I have no plans to install the floats on our helicopter due =o the weight increase of approximately 200lbs.,

Brand new floats cost \$180k fro= Bell installed with 2 year wait time for parts.,

Do you approve of selling our=old floats bags for \$40,000.00 or just keep them?

RE: Floats

Hi Larry, sorry about the Boeing thing! =br>
We'd agree with the Dave's evaluation and are prepared to o=fer \$40k
(assuming it's all serviceable) at this point only due to =he bottle turning
into a pumpkin next month. New bottles are available =nd our price is about
\$12.3k, which would bring us back to the \$50k-ish=mark.

In addition, if throughout this installation process, it gets=determined
that there may be a few items still existing on your a/c tha= we could use,
we would be willing to pay additionally for those if you=#39;re willing to take
them off?

We'd love to make a deal, s= please let me know.

Hello Tom, I've had a broken Boeing t=e past three days and been extremely
busy., What price are you thinking=of offering for my floats parts that I
have so I can let my boss know, = think it would be helpful if you could
tell me what price you're t=inking that's fair?

Thx
Larry

=span style="background-color:rgba(255,255,255,0)">Hi Larry,
</=ont>

Let's work out a deal. Can you inquire further as to the owners
willingness to sell?

=ust fyi, the float bottle is due to expire in Jan 2015.

Subject: Floats

Hello Tom,.

I just received your voice mail, sorry u missed you= call.

I was out=flying today, not sure if you knew, we operate a Gulfstream

IV and Boeing 727 along w=th our Bell 430., I met with David Burch

manger at Bell in Fort Lauderdale Excutive a=rport yesterday., I

explained you are interested in acquiring my float system, he=C2◆

confirmed=the lead time is up to a year for float system parts,

depending out which parts you need., I tried researching my log books
recommended

=blockquote type="cite">for a part number for my floats to no avail., D=vid

recommended

contacting Bell in Piney Flats to research my float system., My seria=

number B4=0 is 49078 I attached a photo of the Bell part number for
=/font>

the Nitrogen blow bottle if=this helps., I'm sure there is great

researched involved trying to find out if th=s float system will work

on your helicopter., There are some parts still installed on=my

helicop=er that you will have to buy from bell to complete the system,
=>=span>

=span style="background-color:rgba(255,255,255,0)">however I am able to
offer everything in the previous photo I sent as

far as floats bottle and other hardwar= that you see in the

photograph., i'm sure this is approximately 80 to 90% of th= parts

nee=ed for your install., I would have to get approval from my owner
