Good Evening All,

Earl Thomas had a last minute meeting to attend and had to reschedule for tomorrow at 1:00pm.

Internet for STC via Liston in conjunction with Broadband VI is almost completed. It is slated to be up and running by tomorrow or the latest Thursday.

Liston and I found that LSJ/GSJ are a bit more problematic. The power issue (lack of power) at the tower and the gym needs to be addressed. Then we will be able to align and retune the dishes. In addition, I will have to take sections of the network like 5 palms and possibly the Tiki hut offline due to the damages in those areas. I will do the walk through with Earl to see what, if anything, can be done immediately on his part to help get us back online as quickly as possible. I will know more after our walk through.

Regards
JRUan
