Dear Jeffrey,

Thanks for this. There's a good article about Merlin's work with =ycorrhizal fungi in tropical forests in the New Yorker here

<https://www.newyorker.com/tech/elements/the-secrets-of-the-wood=wide-web>

We are about to go off to the =sland in western Canada where we habitually spend our summers. Merlin will be staying on in London until the end of the month then =oming out there too.

I'm copying this to =erlin so that you can be in touch direct by email.

All the best

Rupert
