Attached for your review

Proposal for the re=lacement for the VFD for the Well Pump in Well B, \$13,598.00  
2015 Proposal for existing VFD, \$13,412.00 Rogers Dr=lling

2015 the Well Pump for Well B was upgraded to 50 gpm 3 phase motor= in doing so a single phase to 7.5hp 3 phase VFD was installed.

The existing drive is very susceptible to v=ltage fluctuation and as of date the VFD needs to be reset frequently duri=g the day.

This situation its ma=ing very difficult to achieve a constant water supply for domestic and irr=gation proposes.

It will need to be ad=ress if we are to achieve the qty of water required under the permit E 787=.

RMC Electric sourced the company that will supply the drive a=d the support

The new drive is 25hp vs=the existing 7.7hp drive, this will handle the power fluctuations fr=m the power company.

Can we proceed with purchase and install
