This is videographer/documentarian who I've worked with extensively. Total pro. Great work. Absolutely trustworthy.

Hi Michael,

We can do a single camera talking head shoot that would meet Netflix broadcast standards for 8K per day minimum based on a spec for local shoots (as far as Boston). I can break that down for you if you like.

I can shoot to regular HD standard for less than that but I think we ought to be aiming higher given the archive potential of shooting chaps who are no longer quite in the prime of youth.

If we want to go crazy and have a second camera, dollies and the full cinematic experience it would be about 15K.

I'm heading to Amsterdam for ten days from Monday 6th so maybe we could think about Boston for the end of the month?

Cheers!

S
