Subject: G4 update

Jeffrey

Westfield is speaking to Honeywell directly, appears the database is correct=that is loaded in the aircraft, We do have 2 performance computers, which are actually autothrottle computer=.

We are back to troubleshooting, Gulfstream will work the airplane till 2 AM t=night, if by 11 AM tomorrow it is not resolved if you agree, we can fly the=airplane to Islip tomorrow afternoon then meet you in Teterboro to fly the G=50 to Islip to meet with Eric?

Good plan for now?

Thx
Larry
