Jeffrey

While updating the Data bases on G550, Pete noticed a
"L Engine Maintenance" code on the panel,
He downloaded the information from the aircraft and sent to Rolls Royce for=evaluation,
We have this code before During flight, but it clears before landing.,
Rolls Royce recommends changing the EEC
"electronic engine control"
Small computer located on top of the engine,,
Part has arrived this evening and will be installed by Gulfstream at JeT av=ation Teterboro, should be ready to
run Engines by 1 PM tomorrow, I will b= on location as well

This part is covered under Rolls Royce Corporate care

Is this ok?

Thx
Larry
