Quite right, this experiment will show IF there are any truly fascinating results at a distance, or as you say something meaningful.

We are screening Alan so he is isolated, visually and auditory. We are looking at effects on the Cardiac cycle and rate, Skin response (autonomic System) Subjective sensations, present or absent and strength and character of light if seen. AO We will thus have a good idea of the effect and how it effects the body and its systems, IF it is present.

We are looking at the same time at 'trained' subjects, and 'naïve' subjects, in a two x two paradigm.

If 20K is too much, would 10K be possible? Then we will have the answer, and then we can go for the full experiment if you want. Analysis of data done by those who do NOT know the paradigm.

Peter

Attached the invoice for the next experiment. We have enough money for this but not for the next bit of getting subjects to Rome etc=

Could we have another 20K, then by the end of September / October we will have the answer to your question. Can giving light DO anything?

Dea= Giuseppe,

please find attached the invoice for the study to be performed.=u>

=u>

As agreed for=the financial issues related to Italian taxes, the invoice instead to be <=span>

20.000 =uros + VAT (22%) = 24.400 euro

it is for the moment of </=>

16.350 euros + VAT (22%) = =9.947 euros.

When other funds will be available (from taxes or from other source)=in the close future I will complete with another invoice up to the final a=ount agreed among us for this specific phase.

We will have the situation of the p=rchasing material as in the following image for the study n.1 (e.g. only b=avioral measurements). It includes Tablets, Shimmer, phidgets, trigger bo= etc etc.

=/u>

I will start to make the purchases ASAP since August is a typically "dead" moment in Italy for the generalized summer break of all companies, but the first days of this week are still available for business.
