Good Evening

Gilbert Luna, Universal Construction company are mobilizing their equipment this week, they are on schedule to start Road Prep next week. They needed to start earlier than Sept, due to the Batch plant providing material will be relocating in Oct. He indicated they would be starting at the Z and move down towards RC. I have requested they start at the fork in the Road where the Up and Down Roads meet instead, this would allow you clear access to the Main House. /div> Is this OK?
