**Subject:** Re:

I've ordered it :) thx

100k prototyping budget + 20% material + services OH = 120k total cost

= 500k a year / 3yrs

On my side I'll dedicate 2 out of our 4 shipping=containers for 3 years (target paid for install / dev etc but with stock p=ice decline is stopping support for non essential research) and my salary =s covered in other sponsored accounts plus my team of engineers on staff (=ackend /front end software, data science , electrical, embedded systems an= mechanical engineers)

= know it's a big ask, and would understand if it's out of =all park, but I think that's what it would take to make meaningful=and rigorous progress on figuring out if plants can think and communicate=C2

Thoughts?
