Honeywell really screwed up and sent the Part UPS overnight,,
Tracking shows the part is on the truck for delivery, we have no idea of es=imated delivery time,,should be an
AM delivery.,
The original "display controller" is installed and the airc=aft is operating normal at this time,
Should we wait a little longer or do you want to depart at 10am? And instal= the Part on Thursday when we
return?

I can taxi the plane to Atlanta, if the part arrives, Gulfstream will come =own immediately and install, should
only take 30 minutes if the part=arrives,,

Do you want to delay, or leave at 10am?
