thinking about options post ASU.. besides consulting for you, which I am hoping is still an option.

Someone has suggested a podcast, and this may be a good idea.. I can control it myself, and I still haveundreds of thousands of fans in spite of this.. I might want to do a good one, with good equipment and maybe even video. Lots of people have been asking me for years to do this, but I told them I have a day job.  
If I don't have one, it may be a good way to both keep some profile and raise cash.
