Fabric samples are scheduled to arrive at Palm Bch airport office at 8:30am=tomorrow,
Gulfstream had issues with the Part number for the Display controller, the =art number installed in the GIV
didn't match the Parts catalog fro= Gulfstream,, the part they received didn't work,
Pete came through for us, he located a log boom entry from 1991 that showed=this part number being allowed
to be installed due to an Upgrade of the au=oPilot,.
Gulfstream had the part in Savanah and is scheduled to arrive in PBI at 8am=as well tomorrow,, simple install.

If it's ok with you,, can we plan on wheels up at 10am?

I've fueled the plane already, just need the part installed, comple=e functional check and finish the log book
entry,,

I'll taxi the plane to Atlantic when it's completed,

Can we plan 10am? Or earlier if the plane is done?

Thx
Larry
