Subject: a disturbing development today

FYI..=I just heard confidentially from Amelia Huggins, my former Origins =exec. Director, one hour ago that ASU terminated her employment today.. =nbsp;which I find virtually unbelievable. To my knowledge they =id not talk to any of her supervisors or those senior people she worked =ith. I can only think that they have done this to somehow =olidify a perceived case against me. In any case, I thought you =should know. It may impact upon the appeal in some way, which is =hy I am letting you know, and I am going to assume that she is going to =ue the University, and I and numerous others will support her in that. =nbsp;She was in my experience, and that of numerous others, including =ancy, who had a similar position with the Govt. of Australia in the =ast, one of the most effective, professional administrators I knew of =t ASU.

Lawrence
