Mr Epstein,

Yes sir I did, that w=s my estimate with the side concrete road and buildings similar to LSJ. Ok=will send over those calculations.

Very Respectfully,</=iv>

Mr Epstein,

Helicopter Pa= will be 97 Yards (100' x 4"). That would be on a level gra=e and we can get back-fill from GSJ and compact ourselves. I think w= should look into pour breaks to prevent EB from getting overwhelmed tryin= to pour 100 yards in one day. If their are any issues with Barges o= pour-day we will have non-structural pour breaks that will result in majo= cracking. Maybe do (3) 34 yard pours on separate days. To joi= the separate sections you just need 2' pieces of #4 rebar core drille= and epoxied into the joints. That will produce a clean structural joint.<=div>

Very Respectfully,

Kyle R=avis
