Richard:

=p class="MsoNormal">>I am in Gainesville this next week to focus on the containerized unit for Great St. James. We will be shipping out the seawater pump station equipment either tomorrow or Tuesday at the latest. I was informed on Friday that the container for the Great St. James project will not ship to us until this coming Wednesday. We are still pushing to get it out as soon as possible. I will update you and Brice as I know more.

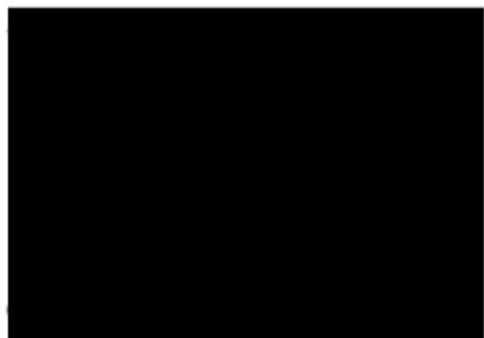

Enjoy your time on S. Thomas and all the best in 2019.
