Subject: Danny Vicars

Would you still like payroll to end September 30th as last discussed?
Currently we are paying him 50% of his salary:

$70,000 \text{ annual salary} \times 0.5 = 35,000 / 52 \text{ weeks} = 673.07 \text{ per week gross pay}$

Danny's last day of work was February 27th. On April 16th we converted Danny to 50% of salary once we found out he was working again..

Please advise
Thank you
